DON'T SQUEEZE BLACK-HEADS-BISSULVE IHEM

Squeezing and pinching out biackhends make the pores large and
cause irritation—then, too, after
they have become hard you cannot
get all of them out. Binckheads are
vaused by accumulations of dux and
diri and secretions from the skin,
and there is only one safe and sure
way, and one that never falls to get
rid of them—a simple way, too—that
is to dissolve them. Just get from
any drug store about two owness of
valentle powder—sprinkle a little on
a hot, wet sponge—rub over the
hackheads briskly for a few seconds
— wash off, and you'll be surprised
to see that every blackhead has disappeared, and the skin will be left
soft and the pores in their natural
condition. Any one troubled with
these unsignity blemishes should try
this simple method—Adv.
